

# ❖ WATER & WASTE WATER TREATMENT EQUIPMENT AND CONSUMABLES

Reverse Osmosis System

UF / RO Membrane

Industrial UF / RO System

Multi Media / Activated Carbon System

Pre- Treatment System

UV Water Sterilizer System

Descaler system

Ozone Desinfection System

Filter Media

Disc / Washable filter

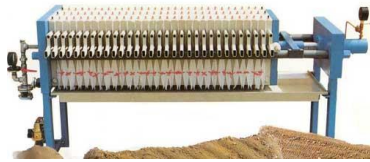

Absolute Chisso/ CP Filter

## Reverse Osmosis and Ultra Filtration System and parts

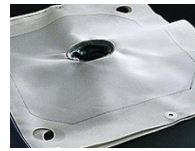

- Water Softener, Multi Media and Activated Carbon filters
- Filter media such as Cation / An-ion resin, Carbon, Antrasite, silica sand, pebbles, Quartz sand and industrial salt.
- Sediment filters and cartridges down to absolute / submicron filters (spun, string, pleated type)
- CP , Chisso filters from JNC Filter Inc for chemical and industrial application
- Carbon block filters, GAC and Oil removal filters
- Ultraviolet system / Ozone system for Desinfection of water systyem.
- RO Membranes from Dow Filmtec, Hydraunutics, CSM, Toray brand

Air Operated Diaphragm pump

Filter Press

Filter Cloth

Filter Plates

Diffuser

Curved Screen

Submersible Pump

Roots Blower

- Solid liquid separation equipment and parts (Filter press, plates and filter clothes)
- Filter plates / Clothes ( PP, PE, Polyamide material)
- Pumps ( Air operated diaphragm pump, centrifugal, etc), Submersible pumps for transferring sludge, waste, etc.
- Diffuser ( fine / course bubble type)
- Roots blower, Curved screen and vibratory separators for pre screening of waste.
